

- Four different connectors available

- Polypropylene Luer Locks connect small diameter tubing with secure, leak-proof connections.

- Polypropylene Plug is used to keep inner tubing free of contaminants before use.

- CPC MPC connector design allows for quick sterile connections and the ability to transfer media easily.

- CPC AseptiQuik® Connectors provide quick and easy sterile connections for small-flow applications. The “FLIP-CLICK-PULL” design enables users to quickly transfer small volumes of media easily with less risk of operator error.

MADE IN

Foxx Life Sciences' **EZBio® MTO (Made To Order) Bottle Assemblies** allow the customer to select individual components suited for their project needs! Bottles are available in Polyethylene Terephthalate Glycol-modified (PETG), or Polycarbonate (PC) in 60mL, 125mL, 250mL, 500mL, 1L, and 2L sizes. Other selectable components include brand of TPE tubing, type and brand of connectors.

EZBio® Media Storage Bottles are perfect for fluid transfer and storage. Assemblies are made entirely with USP Class VI components and Gamma Irradiated in a Class 7 Cleanroom. Assemblies take advantage of Foxx's patented VersaCap® technology which means there is no machining necessary to produce the product. Perfect for single-use applications and to phase out costly stainless steel apparatuses that are expensive to clean and validate.

All **EZBio® MTO Bottle Assemblies** include a bottle, cap, cap adapter, extra close cap for storage, TPE tubing ID 1/8 in. (3.2 mm) X OD 1/4 in. (6.4 mm), fittings with Male and Female connectors, a dip tube, for an accurate draw, a 0.22 µm vent filter and a ratchet style pinch clamp. Each finished is double bagged and Gamma Sterilized in the United States.
